PASTA WELDING

ANTISPATTER PASTE FOR WELDING

CHEMICAL BASE

BASE : mixed of antiadhesive in paste.

COLOUR: Pink.

POINT OF FUSION: > 80 °C

Silicone free.

APPLICATION

PASTA WELDING is a protective paste formulated to protect the nozzles of the torches from the adhesion of the drops during the welding.

It is a good antispatter, not flammable, not toxic and it has a long last durability.

DIRECTIONS FOR USE

Immerse the nozzle of the hot torch or the tip of the welding blowpipe into the pasta for few second, and then start to weld.

MANUFACTURE

Cod.106 pasta 300– 500 gr

box. 43 pots

The manufacturer cannot be held responsible in case of damages caused by correct or incorrect use of the product.
